Cindy,

I edited the table by deleting the strikethroughs and I added the hardness method as noted by Robin. I deleted mercury.

Ex. 5 - Deliberative? The edited file is attached and not yet on the I drive.

Sue

Here is the table with our comments. Please review and let me know by 9:30 if okay to send.
After the RICT meeting I'll check with Rich to see if we need a conference call today or if this can wait until January.

I saved the file under AT_Shared/Special Projects/Dimock Project 2012.

Thanks again to everyone for our meeting yesterday.

Attached is a file that Stevie had and I amended for this sampling. Please take a look at it and see if I left anything out. Should ammonia be on here? Robin, please check the list of metals. We cannot do methane at this time, but Adam is

working on adding this capability (column is on order).

Subject: Dimock Sampling

Kevin and Sue,

There is a possibility that HSCD will go out sampling next month on some home wells related to the Dimock HF issue. I briefly spoke to Rich Rupert last week and he had few details but progress is underway to outline a list of analytes and develop a sampling plan. I gave Rich both of your names as contacts for us. If there are any conference calls or more information this week I'll let you know. For now I will send you two emails that were sent to me.

Sue - would you pull together a list of parameters based on the ORD HF Study and what we recommended in the past?

We can discuss more tomorrow at the branch meeting.

Cindy
